

IWISS One-hand Ratchet Cinch Clamp Tool

Model No.: BJ0010C

Features:

- Plumbing Tools fits all PEX cinch clamps **except for Zurn Quick Clamp.**
- Used with any ASTM F2098 stainless steel clamps from any manufacturer.
- Work with Stainless Steel Clamps of sizes 3/8", 1/2", 5/8", 3/4" and 1" with GO-NO/GO Gauge.

- Length: 250mm
- Weight: 0.76Kg

How to cinch:

1. Cut PEX tubing square, leaving a clean, even edge. Remove any burrs.

2. Slip PEX clamp over tubing and insert fitting. Place clamp 1/8" to 1/4" below edge of tubing.

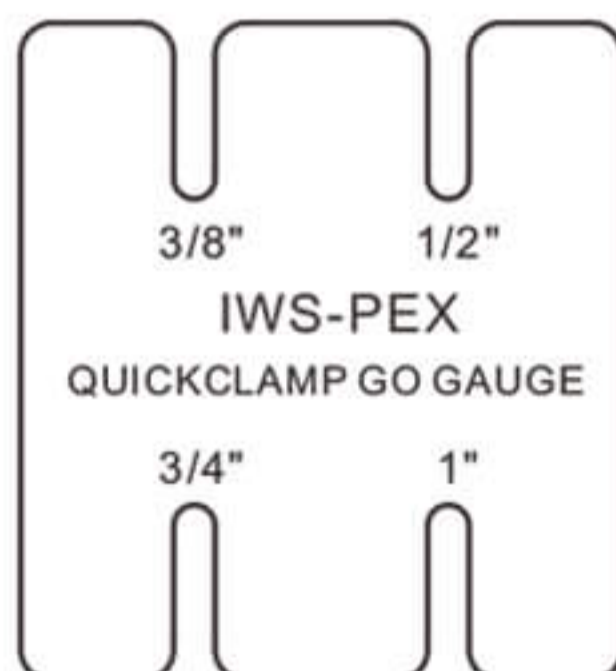

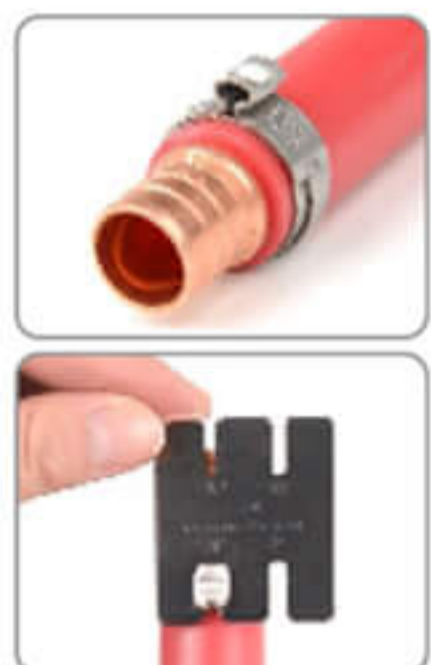

3. Place clamp nub between tool jaws and ratchet the clamp for about 8 times to its closed position.

4. Turn the button to release the tool.

For use with Apollo®, Watts®, Murray®, and Oetiker® PEX cinch clamps. Do not use with Zurn® Quickclamp™ PEX crimp rings.

How to gauge:

The exemplar clamp is 3/4", put the cinched clamp nub between 3/4" slot on the GO gauge. The gauge should get stuck just right in the slot. If the gauge slides off, then the clamp is too tight. If the nub cannot go through the gauge, then the clamp is too loose.

Calibration Guide:
